this two volume set lncs 11641 and 11642 constitutes the thoroughly refereed proceedings of the third international joint conference apwaim 2019 held in chengdu china in august 2019 the 42 full papers presented together with 17 short papers and 6 demonstration papers were carefully reviewed and selected from 180 submissions the papers are organized around the following topics big data analytics data and information quality data mining and application graph data and social networks information extraction and retrieval knowledge graph machine learning recommender systems storage indexing and physical database design spatial temporal and multimedia databases text analysis and mining and demo

in the age of information an open internet is a key component for modern economic development this book analyses the world trade organization agreement for virtual society and explores key questions regarding internet regulation and trade barriers information and communication technology has introduced a transformational element to international trade in the shape of e commerce although internet technology is conceptually neutral it can be used as a medium that poses severe threats to individual rights public morals public order and national security world trade organization law and jurisprudence which are the basis of global economic and trade rules can be applied in cyberspace but internet regulatory measures can also pose a threat to free trade this book thus explores the following questions whether internet regulation constitutes a trade barrier if so what form does that take and whether wto members can invoke exception clauses to justify their internet regulatory measures the research provides deep interpretations on treaty law and case law and draws on additional interdisciplinary approaches to answer these questions this book will be of great interest to scholars and students of law with a focus on international trade and internet regulation as well as anyone interested in chinese cyber law

the lncs volume lncs 9714 constitutes the refereed proceedings of the international conference on data mining and big data dmbd 2016 held in bali indonesia in june 2016 the 57 papers presented in this volume were carefully reviewed and selected from 115 submissions the theme of dmbd 2016 is serving life with data science data mining

refers to the activity of going through big data sets to look for relevant or pertinent information the papers are organized in 10 cohesive sections covering all major topics of the research and development of data mining and big data and one workshop on computational aspects of pattern recognition and computer vision

this book constitutes the refereed proceedings of the 15th information retrieval technology conference airs 2019 held in hong kong china in november 2019 the 14 full papers presented together with 3 short papers were carefully reviewed and selected from 27 submissions the scope of the conference covers applications systems technologies and theory aspects of information retrieval in text audio image video and multimedia data

this book presents the proceedings of the 1st international conference on artificial intelligence and computer visions aicv 2020 which took place in cairo egypt from april 8 to 10 2020 this international conference which highlighted essential research and developments in the fields of artificial intelligence and computer visions was organized by the scientific research group in egypt srge the book is divided into sections covering the following topics swarm based optimization mining and data analysis deep learning and applications machine learning and applications image processing and computer vision intelligent systems and applications and intelligent networks

artificial intelligence and quantum computing for advanced wireless networks a comprehensive presentation of the implementation of artificial intelligence and quantum computing technology in large scale communication networks increasingly dense and flexible wireless networks require the use of artificial intelligence ai for planning network deployment optimization and dynamic control machine learning algorithms are now often used to predict traffic and network state in order to reserve resources for smooth communication with high reliability and low latency in artificial intelligence and quantum computing for advanced wireless networks the authors deliver a practical and timely review of ai based learning algorithms with several case studies in both python and r the book discusses the game theory based learning algorithms used in decision making along with various specific applications in wireless networks like channel network state and traffic prediction additional chapters include fundamentals of ml artificial neural networks nn explainable and graph nn learning equilibria and games ai algorithms in networks fundamentals of quantum communications quantum channel information theory and error correction quantum optimization theory and quantum internet to name a few the authors offer readers an intuitive and accessible path from basic topics on machine learning through advanced concepts and techniques in quantum networks readers will benefit from a thorough introduction to the fundamentals of

machine learning algorithms including linear and logistic regression decision trees random forests bagging boosting and support vector machines an exploration of artificial neural networks including multilayer neural networks training and backpropagation fir architecture spatial temporal representations quantum ml quantum information theory fundamentals of quantum internet and more discussions of explainable neural networks and xai examinations of graph neural networks including learning algorithms and linear and nonlinear gnns in both classical and quantum computing technology perfect for network engineers researchers and graduate and masters students in computer science and electrical engineering artificial intelligence and quantum computing for advanced wireless networks is also an indispensable resource for it support staff along with policymakers and regulators who work in technology

dielectrics in electric fields explores the influence of electric fields on dielectric i e non conducting or insulating materials examining the distinctive behaviors of these materials through well established principles of physics and engineering featuring five new chapters nearly 200 new figures and more than 800 new citations this fully updated and significantly expanded second edition analyzes inorganic substances with real life applications in harsh working conditions such as outdoor nuclear and space environments introduces methods for measuring dielectric properties at microwave frequencies presenting results obtained for specific materials discusses the

application of dielectric theory in allied fields such as corrosion studies civil engineering and health sciences combines in one chapter coverage of electrical breakdown in gases with breakdown in micrometric gaps offers extensive coverage of electron energy distribution essential knowledge required for the application of plasma sciences in medical science delivers a detailed review of breakdown in liquids along with an overview of electron mobility providing a clear understanding of breakdown phenomena explains breakdown in solid dielectrics such as single crystals polycrystalline and amorphous states thin films and powders compressed to form pellets addresses the latest advances in dielectric theory and research including cutting edge nanodielectric materials and their practical applications blends early classical papers that laid the foundation for much of the dielectric theory with more recent work the author has drawn from more than 55 years of research studies and experience in the areas of high voltage engineering power systems and dielectric materials and systems to supply both aspiring and practicing engineers with a comprehensive authoritative source for up to date information on dielectrics in electric fields

As recognized, adventure as with ease as experience approximately lesson, amusement, as competently as harmony can be gotten by just checking out a books Ieee 1566 2015 afterward it is not directly done, you could agree to even more on the order of this life, on the order of the world. We allow you this proper as capably as simple showing off to acquire those all. We offer Ieee 1566 2015 and numerous ebook collections from fictions to scientific research in any way. accompanied by them is this Ieee 1566 2015 that can be your partner.

1. Where can I buy Ieee 1566 2015 books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
